Mr Lafon has become so comfortable that I venture upon another excursion on my agency - I go westwardly to North Brookfield &c. I leave here for you, the last redaction of the Islands history by Libble - When you have looked over it, please return it to this place again, Care of Mr. Alden, that I may return it to the owner, on my return, which will probably be in a few weeks.

Will it not be well for you to write a short review of Dr. Williston's pamphlet, & publish it in the next N. M. M. His whole argument is based upon the assumed position that the Apostles admitted slave holders to the Chh.

Every proper occasion sh^d be taken to get your argument on that subject before the public. It will require a good deal of hammering to make it go down generally.

Truly yours
Tho. Lafon
